Cheryl T. Pillsbury is from Pepperell MA, It is here where she returned to writing in hopes of being published someday. Genre of choice: Science Fiction, Horror and Suspense. She is also a follower of forensics.

Peleports are mutants, yellowish in color with straight black hair and are of a peaceful race. They have the ability to transport through solid walls and objects and to take shape of anything they choose, a wolf for example. Nevard, the peleports leader keeps order and peace on sebillian island on which they reside. Toutant, a fellow mutant of this race, this island has the greatest powers of all peleports, for he is the last of his kind. The Peleports were betrayed, abused and enslaved by the human race, this is why they live secluded and isolated on Sebillian Island. Furthermore Sebillian Island is Sublime, "majestic, if you will" with evergreen grass, crystal blue sky, a land of beauty and wonder however, it has a volcano. This is no ordinary volcano, it is surrounded by sacred dragons and in due time, this volcano will erupt.

As time progresses a team of scientists "human scientists" arrive on Sebillian Island to evaluate the volcanos activity. It's only a matter of time before the Peleports have knowledge of humans on their island. They think it over and in a moments time, eagerly make haste to greet the visitors. Once acquainted, the humans are in shock and awe by their outward appearance, some willing to accept and some not. Davis, "the leader of the crew" befriends Toutant and the other Peleports and basically becomes family. Gary, "a member of his crew" on the other hand feels otherwise.

The peleports explain a brief part of their history and why they are here, and demonstrated their awesome powers. Once Gary discovered this power and their power source "dylithium crystals" greed set in and betrayal was in the midst.

The Peleports and Scientists anticipated the eruption of the Volcano, They work in unison to prevent the eruption and divert the mass amount of lava that would surely destroy Sebillian Island. Extreme and very dangerous measures are taken to save Sebillian Island.

In conclusion, I found Peleport a very good book, Cheryl used vivid description that gave me a visual to what I was reading. This book has it all, Love, death, friendship, and betrayal. I strongly recommend this book to anyone who enjoys Science Fiction, romance and Action.

I give Peleport "Cheryl T. Pillsbury" a 9 out of 10 possible stars.

Peleport
