Review of The Story Box: A Collection of Adventures

Author— **Mary Muhammond**

The Story Box is a collection of six different adventures of children. Ms. Muhammad takes her readers on unique adventures that children can relate to in their everyday lives.

In the first story, The If Tree, a brother and sister, Tracy and Cory, visit their **uncle's** farm in Tennessee. There they discover a life much different than the one they left in the city. They take back with them memories caught on film and in their hearts forever.

In the story of That Old Music, a young girl, fond of hip-hop and her father, a jazz enthusiast, find a mutual bond through the examination and comparison of their different styles of music.

Ms. Muhammad's collection of short stories introduce young readers to jazz, Africa, foster care, and new ways to celebrate birthdays. Her imagination is as rich as any child's as demonstrated in her story telling. What makes Ms. Muhammad's style of writing exceptional is her ability to tell a story, yet allow the reader to use their imagination to invent the details. In this way, each person who reads these stories, will be able to create their individual vision .

Ms. Muhammad's book, The Story Box: A Collection of Adventures, is an excellent chapter book for readers aged 10 years of age and up.
